

## **DELTA RIB**<sup>™</sup>

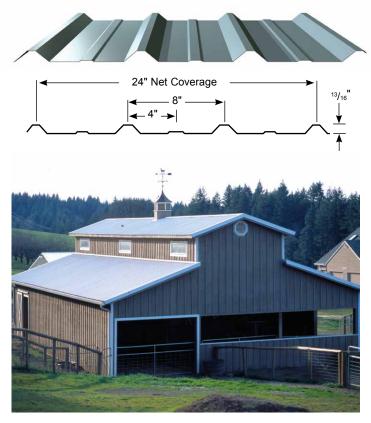

# **Delta Rib**

Delta Rib panel is a light gauge, exposed fastener panel ideal for both roof and wall applications.

#### **FEATURES AND BENEFITS**

- Available in our Dura Tech™ xl paint system or our ZINCALUME® Plus finish for unpainted applications; limited lifetime warranty available on residential applications.
- Manufactured with high tensile steel for greater load capability.
- Polycarbonate skylight panels available.
- Economical standard and custom trim packages available with every order.
- Product is UL Class A Fire Rated when installed in accordance with UL requirements.

### DELTA RIB™

#### COOL Dura Tech xl keeps the heat out and the color brilliant.

- · Superior color retention and resistance to chalk and fade.
- Dura Tech xl energy saving COOL colors reduce the demand for energy.

#### **Product Availability by Gauge and Location**

| Location | Sacramento  | Salem  | Spokane    |  |  |
|----------|-------------|--------|------------|--|--|
|          | California  | Oregon | Washington |  |  |
| Gauges   | 29ga & 26ga | 29ga   | 29ga       |  |  |

Additional lead times apply on products supplied from a non-local facility. All 26 Gauge from Sacramento, CA only.

- <sup>1</sup> Not available in Salem, OR.
- <sup>2</sup> Salem, OR and Spokane, WA only.

#### **Oil Canning**

All flat metal surfaces can display waviness commonly referred to as "oil canning." "Oil canning" is an inherent characteristic of steel products, not a defect, and therefore is not a cause for panel rejection.

### REPRESENTATION OF COLORS MAY VARY DUE TO PRINTING LIMITATIONS.

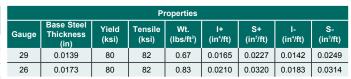

Sample color chips are available upon request. Consult your ASC Building Products representative for more information.

#### **LOAD TABLE**

|       |                |          | Positive (Inward) Uniform Load Capacity (lbs/ft²) / Span (ftin.) |       |       |       |       |       |       |       |       |
|-------|----------------|----------|--|-------|-------|-------|-------|-------|-------|-------|-------|
| Gauge | Span           | Cond.    | 16"  | 2'-0" | 2′-6" | 3'-0" | 3'-6" | 4'-0" | 4'-6" | 5'-0" | 6'-0" |
| 29    | Single<br>Span | ASD, W/Ω | 307  | 136   | 87    | 60    | 44    | 34    | 27    | 22    | 15    |
|       |                | L/180    | -  | -     | -     | 53    | 34    | 23    | 16    | 12    | 7     |
|       | Double<br>Span | ASD, W/Ω | 301  | 141   | 91    | 64    | 48    | 37    | 28    | 23    | 16    |
|       |                | L/180    | -  | -     | -     | -     | -     | -     | -     | -     | 16    |
|       | Triple<br>Span | ASD, W/Ω | 360  | 173   | 113   | 80    | 59    | 46    | 36    | 29    | 20    |
|       |                | L/180    | -  | -     | -     | -     | -     | 43    | 30    | 22    | 13    |
| 26    | Single<br>Span | ASD, W/Ω | 433  | 191   | 122   | 85    | 62    | 48    | 38    | 31    | 21    |
|       |                | L/180    | -  | -     | 117   | 68    | 43    | 29    | 20    | 15    | 8     |
|       | Double<br>Span | ASD, W/Ω | 395  | 181   | 117   | 82    | 60    | 47    | 36    | 29    | 20    |
|       |                | L/180    | -  | -     | -     | -     | -     | -     | -     | -     | -     |
|       | Triple<br>Span | ASD, W/Ω | 480  | 223   | 146   | 102   | 75    | 58    | 46    | 37    | 25    |
|       |                | L/180    | -  | -     | -     | -     | -     | 54    | 38    | 28    | 16    |

NOTES: The moments of inertia, I+ and I-, presented for determining deflection are: (2IEffective + IGross)/2

#### NOTES:

Top values based on allowable stress (ASD). Bottom values based on a deflection limit of L/180.

"-" denotes that the allowable load is limited by the panel stress vs. deflection limit

Steel conforms to ASTM A653 (Galvanized) or ASTM A792 (ZINCALUME) structural steel.

Tabulated values are for positive (inward) uniform loading only.

Values are based on the American Iron and Steel Institute "Cold Formed Steel Design Manual" (AISI S100-12).

Refer to ascbp.com for more complete Delta Rib performance data.
